### Tools

Figma, Claude, Claude Design, Posthog, Dovetail & UserInterviews

### Soft skills

Interpersonal Skills, Creativity, Adaptability, Teamwork

### Previous dev skills

HTML/CSS, JS, React, Git, Agile

### Product Designer

Vertice | London   
Aug 2025 - Present

I redesigned the platform's most visited page to increase product adoption and improve the experience for users and internal stakeholders. I delivered a high-impact UI/UX update strategy to modernise outdated patterns and create consistency across the platform, and designed a new homepage that improved usability and surfaced key value for users.

### Product Designer

Atlassian | New Zealand   
Apr 2022 - Dec 2024

During my tenure on a young and fast-paced developer-focused product like Compass, I excelled in collaborating with multiple teams and stakeholders, including cross-functional partners, to successfully deliver feature work. I took the lead in initiating and executing multiple research projects from start to finish, providing valuable insights and fostering decision-making confidence.

### Frontend Engineer / Designer

Jasper | New Zealand   
Nov 2020 - Apr 2022

At Jasper (a Prop-tech startup) I was involved in designing, developing and maintaining Jasper's three applications (admin, investor and marketing apps).

Previously at Google, Macquarie and MYOB as a Software Engineer
